

FOR IMMEDIATE RELEASE

**EMPIRASIGN STRATEGIES LAUNCHES AGENCY FIXED RATE SPECIFIED OFFERINGS**

*Live Market Data Now Covers All Structured Products Across, US, UK and EU Markets*

NEW YORK, October 7, 2013—Empirasign Strategies LLC, a provider of live and historical mortgage and asset backed securities market data, has launched coverage of Agency Fixed Rate Specified Offerings (FRS). The new offering includes live FRS market data and functionality enabling market participants to sort and organize the data within a Web browser using standard filters like those in Excel®.

The addition of this securities class, which comprises the lion's share of residential mortgage-backed securities new issuance, extends the Empirasign database to all Structured Product sub sectors issued and traded in the United States, United Kingdom and Europe.

“The Structured Products Securities market is one big disjointed mosaic,” said Adam Murphy, President and Founder of Empirasign Strategies LLC. “Empirasign and its customers now have a clear view of more tiles than anyone.”

Empirasign is the sole commercial supplier of live and historical market data covering residential and commercial mortgage-backed (RMBS, CMBS) and asset-backed securities (ABS). Empirasign data is used by more than 30 of the top broker/dealers and 20 leading asset managers as well as key evaluated pricing services.

In addition to now providing a single source for all market data, the independent, unbiased, multi-contributor qualities of Empirasign market data ensure it is the most robust, market data available for pricing, modeling, valuation and risk management. The database is searchable and includes real-time price updates, independent portfolio valuation and risk management functionality. The data can be accessed by an interactive Web interface or API.

**About Empirasign Strategies LLC**

The Empirasign ABS/MBS Trade Database is a web-accessible database of all trade color and dealer offerings in the ABS/MBS/CMBS markets. The company is only commercial supplier of this Market Data.

In 2012, Empirasign indexed over 12,400 Bid Lists, and over 400,000 unique dealer offerings. Empirasign market data is independently sourced from multiple buy and sell-side market participants. The multi-contributor, independent, neutral, real-time

attributes of Empirasign market data make it optimal for trading, market analysis and modeling as well as portfolio valuation and risk management.

Empirasign data is available real time via an interactive Web interface and API. Bulk data can be accessed through both a daily feed and API. Bulk data can be used to enhance current in-house systems. The Empirasign API is language agnostic and allows for easy downloading directly into Excel or practically any other data store.

The company is privately held and based in New York City.
